**4-Ever Water-Tite**

Basement Water Proofing  
25517 Mary Street  
Chesterfield, MI 48051

Bob Gray and Brent Travis,

Personally, Jan and myself would like to commend the both of you for being men of your word. The performance of the **4 - Ever Water-Tite** Team of employees that worked at our home site in Warren, doing everything that was written in the contract, and better than we ever expected.

Your quotation was very fair and reasonable. We felt that we got more than our moneys worth. At the age of 71, and have built my own home in my late 30's and 40's, I know what the proper code and construction are.

The **4 Ever Water-Tite** construction team performance and attention to detail, far exceeded our expectations.

We would like to make ourselves available to have any of your future customers feel free to call us and we will relate our experience first hand.

Bob and Brent, the Schroeder's are extremely pleased with the work performance of your company. We would not hesitate in recommending **4 Ever Water-Tite** to anyone for a job professionally done by experts!
